Snoring & Sleep Apnea Seminar:

Have you been told you snore or grind your teeth at night? These nighttime noises may be an alarm indicating a much more serious condition, Obstructive Sleep Apnea (OSA). OSA occurs when your breathing regularly stops or is slowed for 10 seconds or longer due to blocked or narrowed airways. It is estimated that 18 million Americans are affected by obstructive sleep apnea and 80-90% remain undiagnosed and untreated.

Our FREE seminar will inform you on how we may be able to test you or someone you know for OSA and discuss available treatment options for this condition.

Our upcoming seminars for Snoring and Sleep Apnea are:

Tuesday, October 2nd from 7:00 – 8:00 pm
Tuesday, October 23rd from 7:00 – 8:00 pm
